

Bike 'o'

Five brave souls came along to enjoy a trailquest type score event at Roden nurseries on the fourth of January. I'm not surprised everyone else stayed at home as it was minus 2 when I placed the last of the 22 controls on Sunday morning but it could have been far worse as the day before I was driving around in freezing fog with only 20 metres visibility.

I decided on a 2 hour score event with 10 points for each control with 3 controls having extra points due to access or distance. The penalties for being late back were 10 points for the first 5 minutes and then 10 points a minute. I expected the mountain bikers to use Paper mill bank but I believe a couple of the roadies also went down the steps! (I've been up and down in my jeep!)

Before deductions

Brian Morris	15 controls	180 points
Paul Hill	13 controls	160 points
Mitchell Hill	13 controls	140 points
Mike Callow	12 controls	140 points
Jill Leventon	10 controls	100 points

After deductions !

Paul Hill	160 points
Mike Callow	140 points
Brian Morris	20 points
Jill Leventon	20 points (minus)
Mitchell Hill	20 points (minus)

Good fun and we will try to do it again in the summer !
