

I was very pleased with the turnout & favourable comments received after your efforts.

Due to the restricted size of the area I decided to use this format, which allowed for a few variations ( 5 controls in close proximity) just to keep you on your toes, frequent change of direction & varied terrain.

I could have improved route choice by placing control 13 on north side of hedge.

The nettles had grown rapidly in the last week so I spent nearly an hour slashing routes into some of the controls.

Please remember that in this type of event you Must NOT cross walls & fences shown by thick black lines ( even if you can climb that feature) disqualification in serious competitions.

My thanks to Management of Edgmond Hall, Rod for drawing up the map & courses to his usual high standard, Phil for manning the start, Jill, Tony, Mike, Brian , Clive & others for collecting in the equipment, I was shattered by the time I got home.

Hope to see you at future Wrekin summer series events.

Regards Dave, Mapper & Planner.
