

## Controller's Comments

I would like to apologise to those on Course 5, the Green Men course. The numbering on the map for control No 2 and control No 12 meant that it was easy to mistake control No 12 as control No 2. A significant number of competitors did navigate from control No 1 to control No 12 and therefore lost time. Early in the preparation of the course maps it was identified that on some courses there would be difficulties for the competitor to identify which control is next. To improve upon this, refinements were made to the competition maps. In addition, competitors were made aware at the start that **“Courses 1-5 & 7 have confusing cross-over's. Take care to visit controls in numeric order.”**

On behalf of the competitors I would like to thank Barbara & Austin for their hard work and expertise in producing the courses suitable for the Cup & Trophy competition. Likewise to Geoff for his leadership in organising the day, pausing on his way out, early this morning, to switch the sun on.
